

Tigard Water Service Area Water Smart Landscape Program

Choose up to any two of the following for a maximum combined reimbursement of \$50 to your water bill:

- ◆ **Drip Irrigation.....Up to \$25**
Drip irrigation systems allow water to be applied where it's needed, at the roots of the plants. This type of irrigation saves water by minimizing water evaporation, runoff, and overspray.
- ◆ **Rain Sensor/Switch.....Up to \$25**
There's nothing more embarrassing, wasteful, or costly than an irrigation system that runs when it doesn't have to—in the rain. Rain sensors and switches can be added to your existing irrigation system and will automatically shut the system off during periods of wet weather.
- ◆ **Hose Timer.....Up to \$25**
Hose timers reliably turn off the water to hoses and sprinklers at pre-set times.
- ◆ **Core Aeration.....Up to \$25**
Hire a contractor or rent an aerator and do it yourself. Aeration loosens compacted soil and improves your lawn's ability to take up water and nutrients. It also enhances oxygen levels in the soil, reduces water runoff, increases the lawn's drought tolerance and improves its overall health.

Reimbursement Requirements:

1. Application **must be received** within 90 days of the purchase and **before 4 p.m. on June 27, 2008**.
2. Applicants must be residential water customers in the Tigard Water Service Area with a water account in good standing. For questions concerning status of your account, please call utility billing at 503-639-4171.
